Modified Car Class Guidelines

A car would be considered modified when it has **three or more modifications** from a stock configuration. The following items would be considered modifications.

1. Aftermarket stripping/decals that are not consistent with the car's stock stripping/decal options in look and color.
2. Custom wheels and tires that are not consistent with the car's stock look.
3. Lowering the car to the ground using an air suspension.
4. Paint colors that are not stock or very similar to stock.
5. Exterior, interior, and/or engine appearance enhancement parts from aftermarket manufactures.
6. Any visible aftermarket engine performance parts.
